

## Feature Dredging

Callan Marine

*“This additional funding commitment gives us the confidence to invest in equipment for future projects and expanded work.”*

**- Maxie McGuire,  
President, Callan Marine**

Callan Marine

In June, Callan Marine released the tender package for construction a new trailer suction hopper dredge. At 422 feet long and with a hopper capacity of 16,000 cubic yards, the Admiral Nimitz will be the nation's largest capacity trailing suction hopper dredge.
